Office of General Counsel

11 February 1954

Account of [] 25X1A9A

1. Reference is made to our telephone conversation of this date.

2. It is suggested that in view of the equivocal reply to the Agency's 6 July 1953 statement of account, submitted by subject's husband, that the demand for repayment be renewed. If deemed desirable, it might also be indicated that if payment in full can not be made at this time, that a reasonable proposal for payment in installments might receive consideration.
